Features :-

The Music Player App includes the following features:

- Display the total number of songs in your music library.
- Browse and play music tracks.
- User-friendly navigation with a drawer layout.
- Customized scrollbar design for the music list.

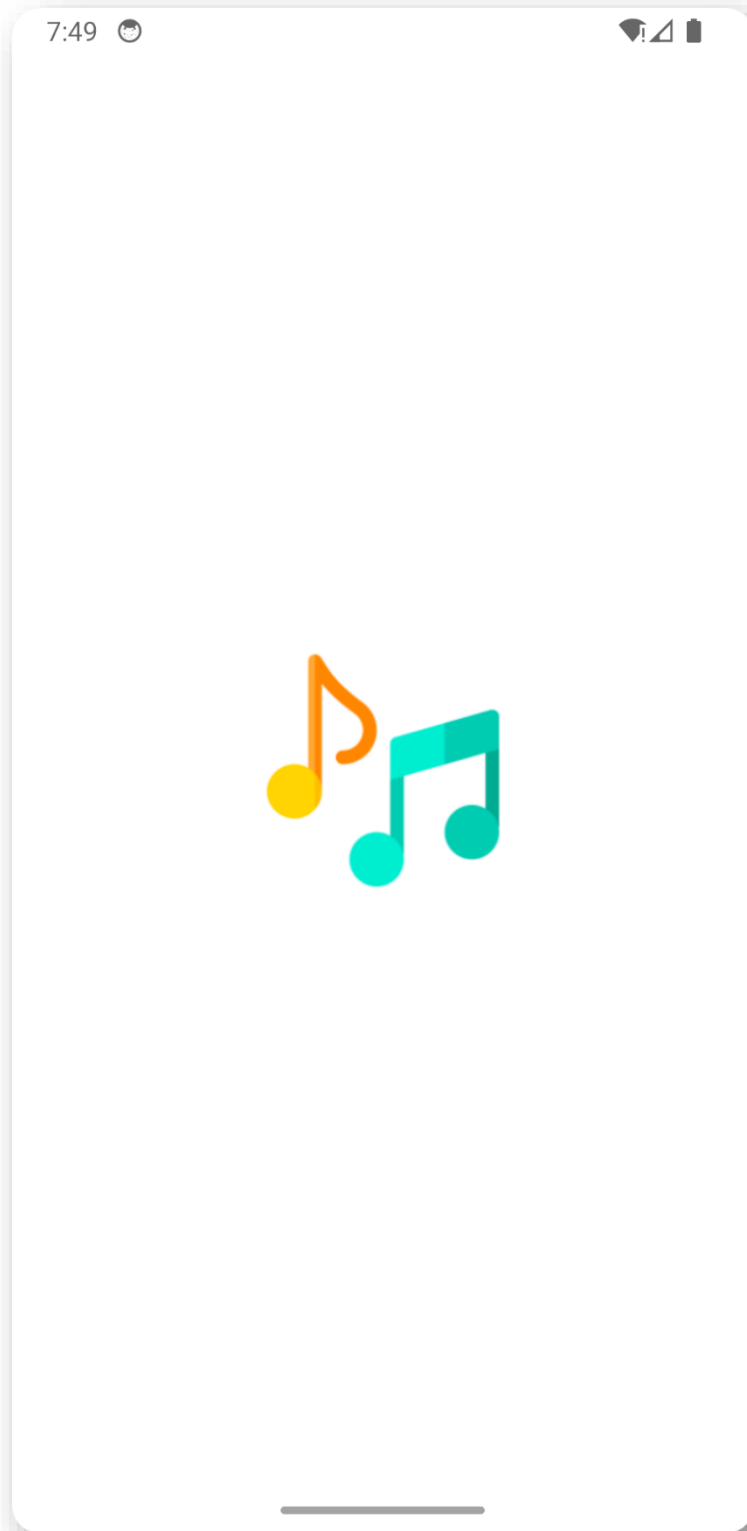

Objectives :-

The main objectives of the Music Player App are as follows:

- Provide a user-friendly interface for users to manage and play their music collection.
- Enhance the browsing and navigation experience for music tracks.
- Customize the app's appearance and features based on user preferences.
